

Solar Garden Lights

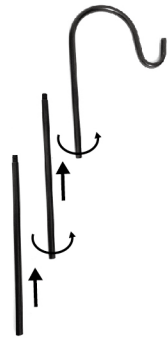

User Instructions:

1 Keep the button "on"

2 Fix the solar panel part on the glass

3 Install the tubes and hook

4 Fix the tube on the spike

5 Finish as shown

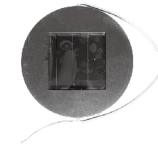

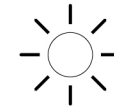

CHARGING AND OPERATION:

STEP 1. Charge the solar light by placing it under direct sunlight for at least 8 hours.

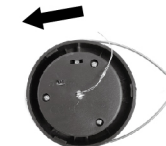

STEP 2. Turn the switch to ON position and the solar light will automatically charge under direct sunlight during the day time and illuminate at night.

NOTE: In order to verify that the light is on or not, cover the solar panel with your hand and light will turn on automatically.

Please allow the battery to charge at least 8-12 hours before first use. It can light 6-8 hours.

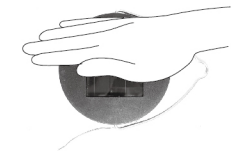

STEP 1

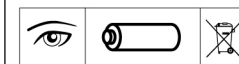

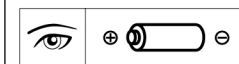

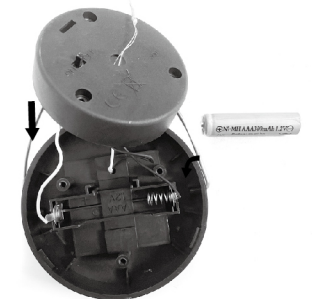

STEP 2

cover the solar panel with your hand and light will turn on automatically.

Battery replacement

- 1) Loosen 3 screws and take down the plastic cover.
- 2) Put 1pc AAA 300MAH NI-MH battery to replace the old one.
- 3) Put plastic cover back and tighten 3 screws.

! only use rechargeable
1x NiMH Battery (1,2V 300mAH)
